

yarp::os::RFModule

```
graph BT; SolverModule --> RFModule[yarp::os::RFModule];
```

The diagram illustrates a class inheritance relationship. At the bottom is a box labeled 'SolverModule'. At the top is a box labeled 'yarp::os::RFModule'. Two blue arrows originate from the top of the 'SolverModule' box and point upwards to the bottom of the 'yarp::os::RFModule' box, indicating that 'SolverModule' inherits from 'yarp::os::RFModule'.

SolverModule
