

icub-main/src/libraries  
/icubmod/dragonfly2/winnt  
/FirewireCameraDC1394-DR2\_2.h

```
graph TD; A["icub-main/src/libraries<br/>/icubmod/dragonfly2/winnt<br/>/FirewireCameraDC1394-DR2_2.h"] --> B["stdio.h"]; A --> C["memory.h"]; A --> D["mutex"]; A --> E["Flycapture2.h"]; A --> F["yarp/os/Time.h"]; A --> G["yarp/os/Stamp.h"];
```

The diagram illustrates a directory structure or a set of dependencies. A central box at the top contains the path 'icub-main/src/libraries' followed by two sub-paths: '/icubmod/dragonfly2/winnt' and '/FirewireCameraDC1394-DR2\_2.h'. From the bottom of this central box, six arrows point downwards to a row of six separate boxes. These boxes contain the following text from left to right: 'stdio.h', 'memory.h', 'mutex', 'Flycapture2.h', 'yarp/os/Time.h', and 'yarp/os/Stamp.h'.

stdio.h

memory.h

mutex

Flycapture2.h

yarp/os/Time.h

yarp/os/Stamp.h
