

iCub::learningmachine
::IScaler

```
graph BT; A[iCub::learningmachine::LinearScaler] --> B[iCub::learningmachine::IScaler];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray box labeled 'iCub::learningmachine::LinearScaler'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'iCub::learningmachine::IScaler'. This indicates that 'LinearScaler' inherits from 'IScaler'.
