

yarp::dev::eomc::PidInfo

```
graph BT; TrqPidInfo[yarp::dev::eomc::TrqPidInfo] --> PidInfo[yarp::dev::eomc::PidInfo];
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a white box labeled 'yarp::dev::eomc::TrqPidInfo'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'yarp::dev::eomc::PidInfo', indicating that TrqPidInfo inherits from PidInfo.
