```
graph BT; A["icub-main/src/tools /FirmwareUpdater/mainwindow.cpp"] --> B["icub-main/src/tools /FirmwareUpdater/straincalibgui.h"]; C["icub-main/src/tools /FirmwareUpdater/straincalibgui.cpp"] --> B;
```

The diagram illustrates a file dependency structure. At the top is a grey rectangular box containing the header file path: `icub-main/src/tools /FirmwareUpdater/straincalibgui.h`. Below this box are two white rectangular boxes. The box on the left contains the source file path: `icub-main/src/tools /FirmwareUpdater/mainwindow.cpp`. The box on the right contains the source file path: `icub-main/src/tools /FirmwareUpdater/straincalibgui.cpp`. Two blue arrows point from the bottom of each of these two boxes up to the bottom of the header file box, indicating that both source files include the header file.
