

yarp::dev::IClientLogger

```
graph BT; CBMC[yarp::dev::CanBusMotionControl] --> ICL[yarp::dev::IClientLogger];
```

The diagram illustrates an inheritance relationship. At the bottom is a white box labeled 'yarp::dev::CanBusMotionControl'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'yarp::dev::IClientLogger'. This indicates that 'yarp::dev::CanBusMotionControl' inherits from 'yarp::dev::IClientLogger'.
