

iCub::ctrl::OutliersDetection

```
graph BT; A[iCub::ctrl::ModifiedThompsonTau] --> B[iCub::ctrl::OutliersDetection];
```

The diagram illustrates a class hierarchy. At the bottom is a white box labeled 'iCub::ctrl::ModifiedThompsonTau'. A blue arrow points vertically upwards from this box to a gray box at the top labeled 'iCub::ctrl::OutliersDetection', indicating that the bottom class inherits from the top class.
