

icub-main/src/modules
/actionsRenderingEngine
/include/iCub/MotorThread.h

```
graph BT; A["icub-main/src/modules<br/>/actionsRenderingEngine<br/>/src/MotorThread.cpp"] --> C["icub-main/src/modules<br/>/actionsRenderingEngine<br/>/include/iCub/MotorThread.h"]; B["icub-main/src/modules<br/>/actionsRenderingEngine<br/>/src/main.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: 'icub-main/src/modules /actionsRenderingEngine /include/iCub/MotorThread.h'. Below it are two white boxes representing source files. The left box is 'icub-main/src/modules /actionsRenderingEngine /src/MotorThread.cpp' and the right box is 'icub-main/src/modules /actionsRenderingEngine /src/main.cpp'. Blue arrows point from each source file box up to the header file box, indicating that both source files include this header.

icub-main/src/modules
/actionsRenderingEngine
/src/MotorThread.cpp
