

icub-main/src/modules
/actionsRenderingEngine
/include/iCub/VisuoThread.h

```
graph BT; A["icub-main/src/modules  
/actionsRenderingEngine  
/src/VisuoThread.cpp"] --> C["icub-main/src/modules  
/actionsRenderingEngine  
/include/iCub/VisuoThread.h"]; B["icub-main/src/modules  
/actionsRenderingEngine  
/src/main.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: 'icub-main/src/modules /actionsRenderingEngine /include/iCub/VisuoThread.h'. Below it are two white boxes representing source files. The left box is 'icub-main/src/modules /actionsRenderingEngine /src/VisuoThread.cpp' and the right box is 'icub-main/src/modules /actionsRenderingEngine /src/main.cpp'. Two blue arrows point from the source files up to the header file, indicating that both source files include this header.

icub-main/src/modules
/actionsRenderingEngine
/src/VisuoThread.cpp
