This diagram illustrates the relationship between three source files in the icub-main project. At the top is a header file, 'skinManager.h', located in the path 'icub-main/src/modules/skinManager/include/iCub/skinManager/'. Below it are two source files: 'skinManager.cpp' and 'skinManagerMain.cpp', both located in 'icub-main/src/modules/skinManager/src/'. Blue arrows point from each source file to the header file, indicating that both source files include the header file.
