

icub-main/src/tools
/motorTemperaturePublisher
/src/MotorTemperaturePublisher.h

```
graph BT; A["icub-main/src/tools<br/>/motorTemperaturePublisher<br/>/src/MotorTemperaturePublisher.h"] <--> B["icub-main/src/tools<br/>/motorTemperaturePublisher<br/>/src/MotorTemperaturePublisher.cpp"]; A <--> C["icub-main/src/tools<br/>/motorTemperaturePublisher<br/>/src/main.cpp"];
```

The diagram illustrates a file dependency structure. At the top is a grey box representing a header file: `icub-main/src/tools/motorTemperaturePublisher/src/MotorTemperaturePublisher.h`. Below it are two white boxes representing source files. The left box is `icub-main/src/tools/motorTemperaturePublisher/src/MotorTemperaturePublisher.cpp` and the right box is `icub-main/src/tools/motorTemperaturePublisher/src/main.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
