

yarp::os::RFModule

```
graph BT; CtrlModule --> RFModule[yarp::os::RFModule];
```

The diagram illustrates a class hierarchy. At the bottom is a gray box labeled 'CtrlModule'. Above it is a white box with a black border labeled 'yarp::os::RFModule'. Three blue arrows point upwards from the 'CtrlModule' box to the 'yarp::os::RFModule' box, indicating that 'CtrlModule' inherits from 'yarp::os::RFModule'.
