The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: `icub-main/src/libraries/icubmod/embObjLib/tools/src/embot_tools.h`. Below it are two white boxes representing source files. The left box is `icub-main/src/libraries/icubmod/embObjLib/tools/src/PeriodicEventsVerifier.cpp` and the right box is `icub-main/src/libraries/icubmod/embObjLib/tools/src/embot_tools.cpp`. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
