

icub-main/src/tools
/FirmwareUpdater/changeaddressdialog.h

```
graph BT; A["icub-main/src/tools /FirmwareUpdater/changeaddressdialog.h"] --> B["icub-main/src/tools /FirmwareUpdater/changeaddressdialog.cpp"]; A --> C["icub-main/src/tools /FirmwareUpdater/mainwindow.cpp"];
```

The diagram illustrates a header file inclusion relationship. At the top is a grey box representing the header file 'icub-main/src/tools /FirmwareUpdater/changeaddressdialog.h'. Below it are two white boxes representing source files: 'icub-main/src/tools /FirmwareUpdater/changeaddressdialog.cpp' on the left and 'icub-main/src/tools /FirmwareUpdater/mainwindow.cpp' on the right. Two blue arrows point from the source files up to the header file, indicating that both source files include this header.
