

icub-main/src/tools
/FirmwareUpdater/straincalibgui.h

```
graph BT; A["icub-main/src/tools  
/FirmwareUpdater/mainwindow.cpp"] --> C["icub-main/src/tools  
/FirmwareUpdater/straincalibgui.h"]; B["icub-main/src/tools  
/FirmwareUpdater/straincalibgui.cpp"] --> C;
```

The diagram illustrates a dependency relationship in a C++ project. At the top, a grey box represents the header file `icub-main/src/tools/FirmwareUpdater/straincalibgui.h`. Below it, two white boxes represent source files: `icub-main/src/tools/FirmwareUpdater/mainwindow.cpp` on the left and `icub-main/src/tools/FirmwareUpdater/straincalibgui.cpp` on the right. Two blue arrows point from the source files up to the header file, indicating that both source files include or depend on this header.
